Evidence

AI signals (2)

React + Tailwind + shadcn + Lucide stack (default output of most AI code generators)
226 occurrences found in the page HTML.

Matches the default stack of AI app generators
Found React/Vite SPA, Tailwind, Radix/shadcn, Lucide icons, Sonner toasts. This exact combination is what Lovable, Bolt, v0 and similar tools output by default. Human developers use it too, so it is supporting evidence only.

About this result

AI detection is probabilistic. This report is based on signals the site exposes publicly (code, metadata, text patterns, images). It cannot see a site's development history, and well-edited AI work can look human-made. Use the result as an indication, not proof.
