Evidence

AI signals (1)

AI coding agent file is published: /CLAUDE.md (Claude Code)
This file holds instructions for an AI coding agent and is only created when one is used on the project. It was deployed together with the site.

Human signals (1)

Domain registered in 1996
The domain predates mainstream AI website generators, so the site has likely existed (in some form) before AI tools. It may still have been rebuilt with AI since.

About this result

AI detection is probabilistic. This report is based on signals the site exposes publicly (code, metadata, text patterns, images). It cannot see a site's development history, and well-edited AI work can look human-made. Use the result as an indication, not proof.
