Evidence

AI signals (1)

Built with Bolt.new, an AI website/app generator

Fingerprints of Bolt.new were found. Sites made with this tool are generated from text prompts, so the layout, code and usually the copy are AI-produced.

About this result

AI detection is probabilistic. This report is based on signals the site exposes publicly (code, metadata, text patterns, images). It cannot see a site's development history, and well-edited AI work can look human-made. Use the result as an indication, not proof.
